

The Best Garden Channel

Resource Guide

The tools and products I actually use, in one place

Hi, I'm Craig — welcome. This guide collects the tools and products I actually use and recommend, instead of you hunting through video descriptions. Everything here is something I use myself or have genuinely tested.

Raised Beds & Watering

Vego Garden Raised Bed

The main setup I use in my own garden — modular metal raised beds, self-watering compatible.

Seeds

SeedsNow

Where I get a lot of my own seed stock — heirloom and non-GMO varieties.

Seed Starting

Burpee 72-Cell Seed Starting Kit

If you're starting seeds indoors and don't already have a setup, this is what I'd point a beginner toward — a 72-cell tray with a greenhouse dome, well-reviewed, not expensive.
